Globic 7000 from Hempel is a new antifouling coating with enhanced operational flexibility for all vessel types and a speed loss of 4.5%, on average (according to ISO 19030). This contributes to significant fuel cost savings and a reduction in associated emissions. Specifically designed to deliver effective protection for up to 60 months, Globic 7000 incorporates an optimum biocide mix to ...

VC Offshore EU Antifouling Boat Paint | International

We left the backs of our test boards as bare primer to act as a control. The good news is that without exception, every antifouling paint showed a marked improvement compared to the bare panels. Fouling differed in a big way between each of our 13 locations, from Dunstaffnage, which had minimal growth, to Hamble, which showed by far the worst.

Hempel 86901 Olympic antifouling 5L

Drag resistance has been studied since the 121970s -11 and recently reviewed. Previous investigations related to drag resistance have been mainly focused on evaluation of drag penalties,13 prediction of drag resistance14 and drag characterization methods, .8,11,15,16 Among all, prediction of drag resistance is still a crucial topic.14,17 The total drag resistance for a marine vessel is composed ...
