Examples and Observations "Human language is organized at two levels or layers simultaneously. This property is called duality (or 'double articulation'). In speech production, we have a physical level at which we can produce individual sounds, like n, b and i. As individual sounds, none of these discrete forms has any intrinsic meaning. In a particular combination such as bin, we have another ...

Types. Ontological dualism makes dual commitments about the nature of existence as it relates to mind and matter, and can be divided into three different types: . Substance dualism asserts that mind and matter are fundamentally distinct kinds of foundations.; Property dualism suggests that the ontological distinction lies in the differences between properties of mind and matter (as in ...
