LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Boating Insights | Above & Beyond Boating

The idea was to build little boats, exclusively out of found natural materials (leaves, twigs, flowers, grass, etc), put them in the lake, and watch them drift away. Love the variety in the designs. If you decide to build and launch little drifters of your own, take some photos and upload them to the MAKE Flickr pool.
